5. Next SMMP meetings
6. Social media
7. Announcements

1. Report of the Tucson meeting

SMMP Attendees in Tucson 2018 and members

- 48 attendees at the meeting, 24 museums represented.
- 166 SMMP members in 2018.

1. Report of the Tucson meeting

SMMP informal gathering:

Suggesting days: between the WestWard Look show and the TGMS
(February, Monday 11 or Tuesday 12, 2019).

Suggested time: evening before (and followed) by dinner.

Suggested place: La Posada Hotel, as many curators stay there.

1. Report of the Tucson meeting

New education committee / Jean DeMouthe's Legacy

- Leslie Moclock was appointed for organizing programs.
- Helpers: Alyssa Morgan, Raquel Alonso-Perez, Mike Rumsey and Eloïse Gaillou.
- Jean's legacy program:
 - * display case in Tucson in her name (\$500)
 - * Jean's book

Care and Documentation of Mineral Collections

Jean F. DeMouthe

2. The SMMP new education committee

Report from the education committee.

- New SMMP involvement at shows: **test runs in Denver and Munich.**
- Already involvement in the Sainte-Marie show in the name of SMMP.

3. Curators' involvement in SMAM

Mineralogy Museums and their curators are very much involved again this year.

Prestige exhibit: Fantasmineral: collectors' dreams

Participating museums:

- Museum National d'Histoire Naturelle, Paris
- Musée de Minéralogie MINES ParisTech
- Musée des Confluences, Lyon, France
- Natur Musée, Luxembourg
- Musée minéralogique de l'Université, Strasbourg
- Natural History Museum, London

3. Curators' involvement in SMAM

Lecture series in SMAM 2018

Thursday June 21 and Friday June 22 at 10am:

- Workshop “**La cristallographie**”: by Cristiano Ferraris (MNHN)

3. Curators' involvement in SMAM

Lecture series in SMAM 2018

Friday, June 22 from 3pm on (Symposium):

- Denis Leypold and Barbara Gollain, curators at the Museum of Mineralogy of Strasbourg

“The Historical Collections at the Mineralogy Museum of Strasbourg”

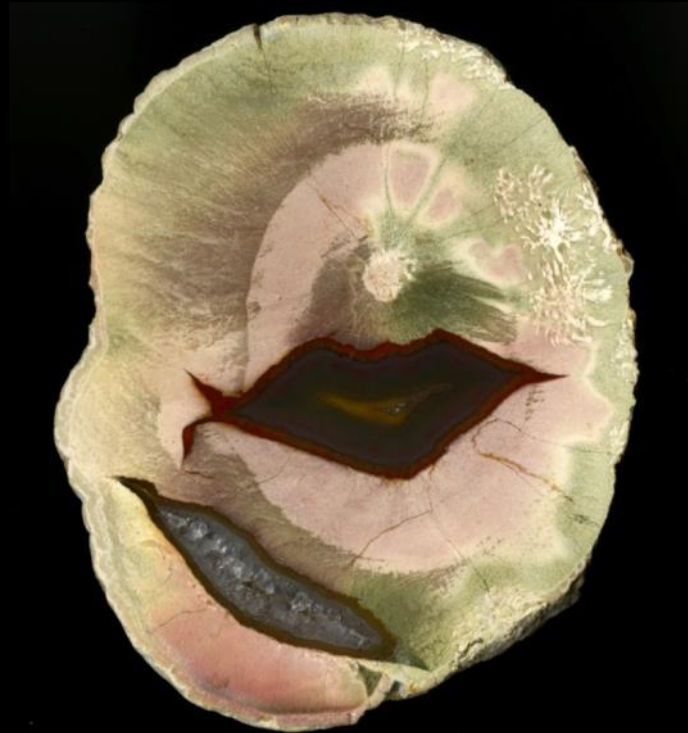

3. Curators' involvement in SMAM

Lecture series in SMAM 2018

Friday, June 22 from 3pm on (Symposium):

- Gian Carlo Parodi, lecturer and mineralogist at the National Museum of Natural History of Paris.

“Fanstasmineralogy: the gemstone arts”

3. Curators' involvement in SMAM

Lecture series in SMAM 2018

Saturday June 23, at 1.30 pm

- Éloïse Gaillou, curator at the Mineralogy Museum, MINES ParisTech

“Beautiful and useful: when minerals invite us to travel”

BEAUX ET UTILES

Quand les minéraux nous invitent aux voyages

3. Curators' involvement in SMAM

Lecture series in SMAM 2018

Sunday June 24, at 11 am

- François Vigouroux, assistant for management and conservation of museum collections at the Musée des Confluences, Lyon

“Hidden treasures of the Confluences Museum”

IMA and SMMP joined meeting
Friday October 26, 2018, (4pm?)

5. Next SMMP meeting in Tucson

Mark your calendar!

The central image is a photograph of a large, orange-brown, hexagonal mineral specimen with concentric growth rings. It is set against a background of smaller, similar mineral grains. Overlaid on the specimen is the text 'TUCSON GEM AND MINERAL SHOW' in white, bold, sans-serif capital letters, with a registered trademark symbol (®) at the end of the word 'SHOW'.

**TUCSON GEM
AND MINERAL
SHOW®**

SMMP meeting

Thursday February 14th, 2019 at 4pm

5pm: public program with Leslie Moclock

7. Announcements?

Any job postings? New positions?

Temporary exhibits? Permanent exhibits?

The screenshot shows the website for the American Museum of Natural History. At the top, there is a blue navigation bar with the museum's logo and name, "AMERICAN MUSEUM OF NATURAL HISTORY". To the right of the logo are links for "Log In | Register" and a language selection dropdown menu. Below the navigation bar is a search bar with the text "Search Keywords or Topics" and a "GO" button. A secondary navigation bar contains links for "Plan Your Visit", "Exhibitions", "Learn & Teach", "Explore", "Our Research", "Calendar", "Join & Support", and "Tickets".

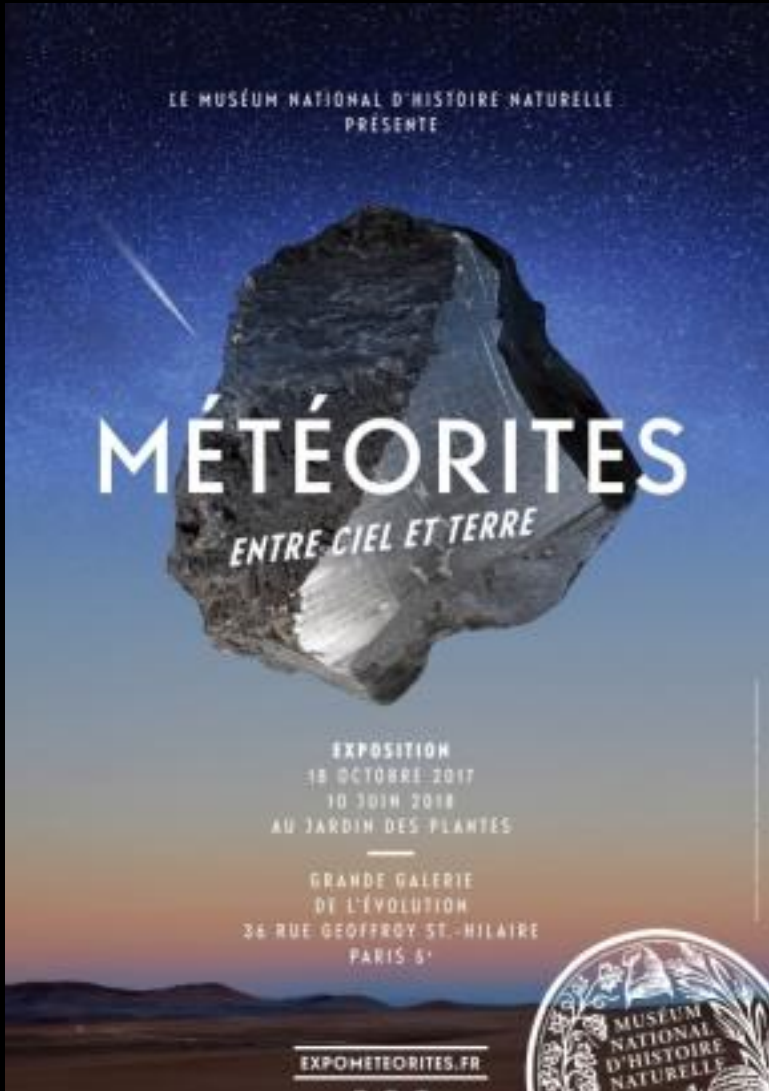

On the left side, there is a "Press Center" section with contact information for press inquiries, including an email address and a phone number. The main content area features a headline: "American Museum of Natural History to Design All-new Halls of Gems and Minerals". Below the headline is a link to a press release. A large image shows a tall, purple amethyst geode standing in a grand gallery with classical columns.

© AMNH/D. Finnin

The new Allison and Roberto Mignone Halls of Gems and Minerals will feature a sparkling 12-foot-tall amethyst geode, on temporary view in the Museum's Grand Gallery through the 2017 holiday season. This geode, which weighs more than 9,000 pounds and is among the world's largest, was recently collected in the Bolsa Mine in Uruguay.

Sorbonne Collection

L'impactisme est le phénomène le plus important de tout le système solaire, voire de tout l'Univers puisque des cratères d'impacts s'observent sur tous les corps planétaires. Il est même à la base de la formation des planètes.

Sur Terre, 99% des espèces ayant existé ont disparu et cinq extinctions liées à des impacts majeurs ont pu être répertoriées.

Actuellement nous avons recensé à la surface de la Terre 189 «structures d'impacts» à priori d'origines météoritiques.

Venez découvrir une partie de la collection de météorites, tectites, impactites et brèches d'impacts d'Alain Carion dans la fantastique collection de minéraux Sorbonne Université situé dans la faculté de Jussieu à Paris (75005)

www.collection-mineraux.upmc.fr

*- Ouvert le lundi et du mercredi au samedi -
